

# Curriculum Vitae

## **Mr. Adisorn Singhavibul**

**Tel.: 087-0010546**

**Email.: adisorn\_singha@hotmail.com**

### **Career Objective**

Field experience in ECP, Power Plant Oil and Gas, Refinery Mineral Plant Company moreover Handling with project Equipment, Piping, Steel Structure, Painting, Insulation including direct-hire ,Subcontractors to Obtain Quality and Safety Construction.

### **Personal Data**

Date of Birth	:	September 29,1980
Age	:	39 years old
Sex	:	Male
Marital Status	:	Single
Weight	:	68 Kilograms
Height	:	170 Centimeters
Religion	:	Buddhism
Nationality	:	Thai
Race	:	Thai
Military Status	:	Exempt
Permanent address	:	18/56 Prasasab Village Soi Hathailad39 Samwatawantok Kongsamwa, Bangkok 10510

### **Education**

#### **Bachelor Degree**

King Mongkut's of Technology North Bangkok

Bachelor of Industrial Technology in Welding Technology, 2006 GPA: 2.05

## **Diploma**

Rajamankara Institute of Technology North Bangkok Campus Certificate of Metal, 2003  
GPA:2.36

## **Related Skills**

### **Computer Skills**

Microsoft Office, Word, Excel Access, power point, Auto-cad, Internet, E-mail,

### **Language Skills**

Thai : Native language  
English : Good writing, speaking, reading

## **Work Experience**

### **Feb-2020 to Present : JGC Holding Corporation Project Harmony Maptaphut, Rayong**

#### **(Position; Piping Supervisor)**

- Monitor and Supervisor contractor to carry out for fabrication and installation
- Review procedure method statement
- Solving critical work and co-ordinate with construction team
- Internal line check and Pressure Test Air Blow

### **Aug-20019 to Jan-2020 : Aibel Thailand Ltd.**

#### **Johan Sverdrup P2 Project (Laem Chabang Port)**

#### **(Position; Piping Mechanical Completion Engineer)**

- Piping System handovers
- Prepare piping package for handovers
- Recheck attached file in package, ISO, pipe support, report Exe.
- Internal line check
- Final walk down with customer

- Punch work
- Final document to customer

**May-2019 to July-2019 : Accepted Engineering and Consultant (AE&C)  
Project 2X65 TDP PCM Project (PCM#1) # Ban Chang, Rayong**

**(Position; Piping Engineer)**

Engineering and construction consultant piping work

- Monitoring main contractor for construction activity
- Fabrication piping , pipe support
- Installation pipe spool
- Monitor subcontractor prepare piping test package
- Consultant prepare database piping work

**2017-Apr,2019 : TOYO-THAI CORPORATION PLC.**

**Project: TTCL, D-185 ASM Asia Silicone Monomer, (SEC/ G1 Renovation  
Project Phase 3)**

**(Position; Piping Superintendent)**

- Manpower and progress Planning, Fabrication, Installation
- Daily , Weekly, Monthly progress report
- Monitoring manpower by FM
- Coordinate with Supervisor and Project team, owner
- Preparing Fabrication, installation piping work
- Preparing package pressure test
- Control status material and issued to manpower by FM

- Monitoring planning pressure test
- Tie-In -piping work
- Line Check, Re-instatement, Killed Punch
- System Turnover
- Modify and maintenance support commissioning team

## **2016: TOYO-THAI CORPORATION PLC.**

### **Project: TTCL, D-183, SCG Chemical Site 3 (Turnaround Project) ( Position; Piping Superintendent)**

- Manpower and progress planning, Fabrication, installation,
- Daily , Weekly, Monthly Progress report
- Prepare piping spool for turnaround work
- Coordinated with Owner, subcontractor, Fabrication, installation piping work
- Preparing package test
- Monitoring pressure test progress on field by area
- Control status material and issued to subcontractor
- Monitoring Line Check, Re-instatement, Punch work
- System Turnover
- Modify and maintenance support commissioning team

## **2015 : TOYO-THAI CORPORATION PLC.**

### **Project: TTCL, D-174, Bangpoo SPP Power Plant Position; Piping, Steel Structure, Painting Superintendent**

- Manpower and Progress Planning, Fabrication, Installation budget and safety schedule
- Daily, Weekly, Monthly Progress report
- Coordinate with sub-contractor and owner
- Monitoring subcontractor Fabrication, installation piping work
- Preparing package pressure test
- Monitoring pressure test progress
- Control status material and issued to subcontractor

- Monitoring Line Check, Pressure test, Re-instatement, Killed Punch
- System Turnover
- Modify and maintenance support commissioning team
- Control Fabrication Steel structure by priority then sent to site for install
- Control Overs all painting, insulation work

## **2014-2015 : TOYO-THAI CORPORATION PLC.**

**Project: TTCL, D-172, Polybutylene Succinate Plant Project(PTT MCC)**

**Rayon Owner: PTTMCC**

**( Position; Piping Superintendent )**

- Manpower and Progress Planning, Fabrication, Installation under budget, safety schedule
- Weekly monthly Progress report
- Coordinate with sub-contractor and owner
- Monitoring subcontractor Fabrication, installation piping work
- Preparing package and mar up P&ID and mark up system
- Preparing planning pressure test progress
- Preparing material and issued to subcontractor
- Line Check, Re-instatement, Killed Punch
- System Turnover by system mark-up on PID
- Modify and maintenance support commissioning team

## **2013 : TOYO-THAI CORPORATION PLC.**

**Project: F-032 DAP NO.2 VINACHEM**

**Project: (Vietnam)**

**(Position; Piping Superintendent)**

- Progress and manpower planning, budget, safety schedule
- Control All Piping Construction work
- Control and coordinate sub-contractor and owner
- Control subcontractor Fabrication, installation piping work

- Fabrication, installation according master schedule
- Preparing package test

## **2012: TOYO-THAICORPORATION PLC.**

**Project: F-025 Binh Phouc Ethanol Plant**

**Project(Vietnam)**

**( Position; Piping Supervisor )**

- Supervisor area
- Monitor fabrication at work shop
- Installation pipe spool support
- Inspection work with subcontractor and owner
- Line check, Pressure test, Reinstatement work

## **2011: AJINOMOTO ENGINEERING THAILAND.**

**Project: Ajinomoto Engineering Thailand (Kampangphet)**

**(Position; Engineer)**

- Control and coordinate subcontractor
- Monitoring subcontractor Fabrication, installation piping work
- Inspection work with subcontractor for handover

## **2010-2011: TOYO-THAI CORPORATION PLC.**

**Project: (1,6 HEXANEDIOL PLANT PROJECT) TTCL JOB NO. D-150**

**Owner: UBE FINE CHEMICALS**

**(Position; Piping Engineer)**

- Supervise Piping Steam Tracing Work, tubing tracing, pipe bend tracing, Line check, Pressure test, Air dry, handovers to insulation

## **2009- 2010: TOYO-THAI CORPORATION PLC.**

**Project: ( PPCL BPA PROJECT ) TTCL JOB NO.D-143 ,RAYONG**

Owner: PTT PHENAL COMPANY LIMITED

**(Position; Piping Engineer)**

- Coordinate with subcontractor and owner
- Control subcontractor Fabrication, installation piping work
- Preparing piping test package
- Monitoring planning pressure test progress
- Control status material and issued to subcontractor
- Line Check, Re-instatement, Killed Punch from Owner
- Control pressure test: Pneumatic test & Hydro test on field and reinstatement

**2007- 2009: TOYO-THAI CORPORATION PLC.**

**Project: (PTTPE ETHANE CRACKER PROJECT) TTCL JOB NO. D-132 RAYONG**

Owner: PTT Polyethylene PCL.

**(Position; Piping Engineer)**

- Planning and Progress Control
- Coordinate with subcontractor and owner
- Fabrication, installation piping work
- Preparing piping test package
- Monitoring planning pressure test progress
- Control status material and issued to subcontractor
