Personal Information

Date of Born: August 25, 1980
Sex: Male
Marital Status: Married
Height: 178 Cm
Weight: 75 Kg
Current Age: 34 Year Old

Expected Job: Mechanical Maintenance Supervisor

Expected Salary: Negotiable

Objective

To use the knowledge gained through education and engineering experience working in the Mechanic used the most.

Education:

Bachelor Degree:	June 7, 2010 Srinakharinwirot University Faculty: Faculty Of Engineering Major: Mechanical Engineering GPA:2.42
Diploma	March 30,2001 Technology Udonthani School Major: Mechanical Engine GPA: 3.10
Vocational	March 31,1999 Udonthani Engineering School Major: Mechanical Engine GPA: 3.17

Work Experience

May 06,2015 to Present

Company Name:Sekisui Specialty Chemicals (Thailand) co., Ltd.
Address:5-5 pangmuang chaprao Rd.3-1 Huaypong sub-district.
A.Muang Rayong
Tel:038-010214-9
Salary: 48000 Bath
Position: Maintenance Engineer

Job detail

- 1.Perform maintenance activities of all equipments with particular focus mechanical equipment bolt static equipment and rotating equipment
- 2.Trouble shooting of all Mechanical equipment
- 3.Perform maintenance modification work
- 4.Perform lubrication on equipment PM's such as WI for Lubricant machine
- 5.Perform WI for Repair machine
- 6.Perform spar part of Each machine in factory ,Bolt static equipment and Rotating equipment stock taking

7. Perform Preventive maintenance and Predictive maintenance of Each machine in factory
8. Improvement machine for machine work more efficiently
9. Order tools to use in their work
10. Perform JHA of each work. There is a danger that something might happen. Before operation work
11. Perform RCA of machine when machine occur damage
12. Monitor and Record when machine occur damage and find solutions to prevent recurrence
13. Take responsibility for the safety and behavior of any person who may be any time under supervision
14. Perform all tasks in safety manner following safety rules
15. Act in a safe manner at all time ,Bearing in mind the safety of oneself and others
16. Maintain a clean and tidy work shop area at all time
17. Perform plant change modification activities including design. Cost estimate and actual equipment modification

September 16, 2005 to April 30, 2015

Company Name: Bayer Thai co., Ltd.

Address: 4-4/1 Road I-8 Maptaphut Industrial Estate

T. Maptaphut A. Muang Rayong 21150

Tel: 038-910344 Ext 1506, 1673

Salary: 33040 Bath

Position: Shift Technician 3- Mechanical

Section: Mechanical Compounding Plant

Department: Technical Site Service (TSS)

Job detail:

Main Purpose of the Job: For Mechanical Technician Level 3

Provide prompt, high quality of equipment repairing in order to maintain the equipment availability and perform routine and preventive maintenance jobs in order to maintain the high plant reliability.

1. Provide prompt, high quality of equipment repairing in order to maintain the equipment availability and finding the cause of failure and preparing all the tools and parts as necessary.
2. Perform routine and preventive maintenance jobs in order to maintain the high plant reliability by following all items in the check guide for each type of equipment and rectify as needed.

6. Prepare maintenance report and/or finding its Root Cause Analysis after finished maintenance activity.
7. Monitor and record SAP maintenance module to complete maintenance documentation workflow.
8. Repair main machine is mechanicals as such Repair pump such as Centrifugal pump, Gear pump, Magnetic drive pump ,Vacuum pump Etc. Repair blower ,repair gear boxes, repair rotary valve and other general machinery
9. And works repair general

My Performance of 2014 For Mechanical Technician Level 3

Objective

- 1) RIR
- 2) JSBO
- 3) NH
- 4) JSA
- 5) RIR

Measure

- 1) RIR = 0 for division goal
- 2) JSBO = 5 FTE
- 3) NH = >2 FTE
- 4) JSA = >2 FTE
- 5) RIR = 0. for TSS employees and contractor

Objective

- 1) IDT
- 2) CUI
- 3) Alpha saving
- 4) Mecanic tool,
- 5) Personal tool loos
- 6) Damaged code and cause code
- 7) Report and presentation failure machine
- 8) Analy basic failure machine .
- 9) GenS

Measure

- 1) 1) IDT= 0 %
- 2) CUI = 100 % in all area
- 3) Alpha saving = 3.6 MTHB for all area
- 4) Mecanic tool, tool damaged < 0.4%, tool lost 0.25%, tool available 98.5 %
- 5) Personal tool loos 1%
- 6) Damaged code and cause code = 85 %
- 7) Report and presentation failure machine
- 8) Analy basic failure machine 3 topic a year .
- 9) GenS >85 %"

Objective

- 1) Preparing all the special tools and parts as necessary.
- 2) Able lead RCA routine job in team to analyze damage causes code in SAP

- 3) Understand and response at least one critical equipment this year was assigned response
- 4) Able to learning new thing in machine and tool repair
- 5) Control and motivate team to keep reliability and achieve as target

Measure

- 1) Preparing all the special tools and parts as necessary 100%refer supervisor recomend .
- 2) Able lead RCA routine job in team to analyze damage causes code in SAP= 2 topic
- 3) Understand and response at least one critical equipment this year was assigned rssponse Vacuum Pump unit.
- 4) Able to learning new thing in machine and tool repair for Vacuum Pump
- 5) Control and motivate team to keep reliability and achieve as target =100%

Objective

Project and MOC Planning and organizing/work Management

- 1) Project :
- 2) MOC

Measure

Project and MOC Planning and organizing/work Management

- 1) Project : support project work in all area 100 % after approved
- 2) MOC : follow MOC work in all 100 % after approved

April 1, 2003 To September 15 ,2005

Company Name:Bridgestone Tire Manufacturing (Thailand) Co., Ltd.

Address: 700/622 M.4 T.Bankao A.Panthong Chonburi 20160

Tel: 038-210300

Salary: 10200 bath

Position: Mechanical Technician

Section: Maintenance
