

**Personal Information:**

Name: Yongyut Pudwong  
Present Address: 153/2 Moo 2, Tumbol Dongsuwan,  
Dok Khamtai, Phayao, 56120, Thailand  
Mobile: 097-2474742  
Email: oatyongyut@gmail.com  
Date of Birth: 29 Jan 1990  
Status: Married  
Nationality: Thai  
Present salary: 57,900 baht  
Expected salary: 60,000 baht

**Skills:**

- .NET Core, .NET Framework
- C# .NET (Async, Await)
- Javascript, HTML5, CSS3
- Reactjs, Vuejs, JQuery
- ASP.NET Core, ASP.NET MVC, ASP.NET
- React Native, Flutter
- Bootstrap, Ant.Design, Vuetify
- Visual Studio, Visual Studio Code
- RESTful API
- Reporting Service
- LINQ, EF, EFCore, Store Procedure, SignalR, NUnitTest, Dependency Injection
- XML, JSON
- OOP, Design Pattern
- Github, BitBucket, Team Foundation Server
- SQL Server, MySQL
- Understanding Agile (Scrum) Concept

**System Analyst (Fullstack .NET Developer)**

2020 - Present

Senior Aerospace Company Limited

- Gathering requirement, analysis, assessing, planning and translated from business requirement to technical requirement by OOP Concept
- Developed software web applications using SQL, .NET Core MVC, .NET MVC, and jQuery Reactjs, Vuejs to support internal and external customer, HR, Production, talent and performance management applications through system driven and provide data by Stored Procedure integrate with Entity Framework Core
- Tuned complex SQL stored procedures and implemented asynchronous call functions (Task Parallel Library) in MVC to improve the performance and scalability of application.
- Implement software to monitoring where performance of machine in production line and then realtime report to CEO
- To Supported enhancements and maintenance of existing applications
- Identified and suggested tools to enhance the code quality, maintenance and reusability.Coded websites end-to-end using Responsive Web design (RWD), providing optimal viewing experience across a wide range of devices.
- Developed .NET code fixes and enhancements for inclusion in future code releases
- Responsible for catering the app load times to comply with performance threshold by minifying and versioning the static content, applying base64 encoding to images, etc.

**Senior Developer (.NET)  
Programmer Analyst**

TIPS Company Limited  
Responsibility

2016 – 2020  
2014 – 2016

- Gathering requirement, analysis, assessing, planning and translated from business requirement to technical requirement by OOP Concept
- Developed software web applications using SQL, .NET Core MVC, .NET MVC, and jQuery Reactjs, Vuejs to support internal and external customer, HR, Production, talent and performance management applications through system driven and provide data by Stored Procedure integrate with Entity Framework Core
- Developed software mobile application by cross platform using React Native and Flutter with Backend ASP.NET C# Web API
- Participated in all phases of SDLC starting from Analysis to Delivery of the application development projects and also supported enhancements and maintenance of existing applications
- Implement RESTful API for the external customers to provide secure data accurate and fast
- Involved in system study and database engineering such as creating databases, Tables, Complex Stored Procedures, Functions, Views, Triggers and SQL Performance Tuning to better data manipulation and consistency.
- Built, tested and deployed scalable, highly available and modular software applications using .NET Core MVC and Reactjs to support 500 users.
- Developed notification service center using LineNotify and SMS to provide await document workflow to manager
- Developed file sharing service center to stored any file keep to database structure for easy to use and easy to maintenance backup, restore
- To supported ERP Software such SAP, N4 Terminal Operating System
- Encourage users to use the system that IT has the most improvement.
- New technology training to increase knowledge for the IT Team.

**Programmer**

KRS Company Limited  
Responsibility

2013 – 2014

- Analysis system problems and then report the problem to the developer team.
- Develop Windows Application to control inventory hardware and software license by VB.NET, Oracle.
- Provided hardware and software to support 400 users.
- Maintenance and repair computer and Barcode printer

**Education:**

- King Mongkut's University of Technology North Bangkok – April, 2013  
Information Technology GPA 2.80
- Thai-Austrian Technical College – April, 2011 Electronics Computer GPA 3.40

**Training**

- Advance OOP Concept
- CCNA Router & Switch
- Advance Wireless Internetworking
