

# Curriculum Vitae

## Personal Details

**Name:** Mr. Manoon Jabsangjan

**Age:** 28 years old

**High:** 171 cm

**Marital Status:** Single

**Address:** 177/2 Moo 5 Nongkula Sub-District, Bangrakum District, Phitsanulok Province (65140)

**Contract Number:** Mobile 08-3622-2040

**E-mail Address :** [manoon.j@hotmail.com](mailto:manoon.j@hotmail.com)

**Date of Birth:** 19 /04/1988

**Nationality:** Thai

**Weight:** 83 kg.

## Education

Bachelor's degree in Electrical engineering GPA 2.32 from Naresuan University

## Skills

- 4 years of relevant experience in the Oil and Gas field.
- Diploma in schematic diagram, P&ID, cause-effect, termination & wiring diagram and standard – typical drawings.
- Diploma in instrument devices installation, working and processes, tubing and fitting.
- Diploma in electrical devices installation and working such as transformer, MDB, MCC, VSD panel, RCU, electrical motor pump, LV distribution, switch gear, cable test, grounding/lightning.
- Function test, loop test, instrument calibration, control valve, shutdown valve, transmitter, level-pressure-flow-temperature switch, SCU panel, PLC panel.
- Diploma in tester equipment such as HART calibrator, process calibrator, simulator, dead weight.
- Inspection and test plan, inspection report, inspection notification.
- MTO for electrical and instrument engineering.
- Electrical and Instrument QA/QC procedure and drawing for PTTEP S1-Project, Sirikit Oil Field.
- Knowledge of device SCADA system.

## **Experience**

**Dec 1, 2015 to Present**

**VISAVAKIT PATANA CORP., LTD.**

**Assigned as:** Electrical and Instrument QA/QC Engineer

**Project name:** PTTEP S1-Project, Sirikit Oil Field. Lan Krabue District, Kamphang Phet Province, THAILAND

**Responsibility:**

- Issue Inspection and Test Plan.
- Inspector field E&I installation, testing and calibrate.
- Marks up/ as-built package.
- Materials take off for E&I engineering.
- Input data in the computerized, issue test report, close out report, calibration report, internal audit –punch list and test package.

**Project experience:**

- Mobile production facilities for new well site.
- Water booster pump.
- Water flood and Enhanced oil recovery project.
- K-3550 gas compressor package project.
- T-303 firefighting system.
- LKU-E production facilities and booster pump project.

**Aug 16, 2013 to November 30, 2015**

**PAE (Thailand) Public Company Limited**

**Assigned as:** Electrical and Instrument(E&I) QA/QC Engineer

**Project name:** PTTEP S1-Project, Sirikit Oil Field. Lan Krabue District, Kamphang Phet Province, THAILAND

**Responsibility:**

- Issue Inspection and Test Plan for all E&I part concerned PTTEP S1-Project.
- Inspector field for installation E&I equipment.
- Issue Test package documenting for deal and handover project.
- QA/QC Fire Fighting System at STN-A, Gaslift Compressor at STN-A and Surface Modification , Install a new fire water pump diesel engine, Installation of custody crude metering skid at flow station, NTM-D02 Jet pump Installation, YMG-AC/AD Well Testing Hook up with MPF08, GSEA AND EFR WF L&P BLOCK FACILITIES DEBOTTLENECKING Project

**May 15,2011 to Aug 15,2013**

**Knight Access Company Limited.**

**Assigned as:** Electrical and Communication Engineer.

**Project name:** Automatic Rainfall system of Thai Meteorological Department, SCADA system for Pra Ka Nhong Drainage tunnel Project.

**Responsibility:**

- Preventive and Corrective Maintenance operations for SCADA system of Meteorological Department project.
- Design, develop and configuration automatic rainfall & water level system of Thai Meteorological Department
- Maintenance device for SCADA system.

**Training:**

**December 2016**

Training “Tube fitting installation safety training , Thread and end connection identification seminar and hand tube bender training” by M.J. Bangkok valve and fitting Co., Ltd.

**March to April 2009**

Training in department of communication Engineer for air traffic control system at Aeronautical Radio of Thailand Co., Ltd.

**October 2008.**

Training satellite data and fiber optic data system at CAT Telecom Public Company Limited
