

# CURRICULUM VITAE

## Mr.Burachat Tablurchai

Date of birth : April 28, 1979  
Age : 41 year old  
I.D.Card No. : 3 4301 00141 82 1  
Religion : Buddhism  
Height : 170 Centimeter.  
Weight : 60 Kg  
Marital status : Marry  
Health : Good  
Permanence address : 149/2. T.Kwanwan, A. Muang, Nong Khai, 43000  
Mobile Phone : **083-0925821**  
E-mail address : burachat\_t@yahoo.co.th

## Education

Secondary : Technology and Shipbuilding College of Nongkhai  
Technical Diploma : Welding Tech

## Computer skills

- Microsoft Excel, Word, Access,

## Summary Experience Data Record

- 2019 to Present
  - Client : **PROPYLENE OXIDE PROJECT**
  - Company : GC Maintenance & Engineering Co., Ltd.
  - Position : [Insulation and Painting Supervisor](#)
- 2017 to 2019
  - Client : **PTTGC LLDPE EXPANSION AND HEXENE-1 PROJECT**
  - Company : PTT Maintenance & Engineering Co., Ltd.
  - Position : [Insulation and Piping Supervisor](#)
- 2014 to 2016
  - Client : **PTTGC Convert Heavy Gas to Olefins Feedstock Project**
  - Company : Business Services Alliance Co., Ltd.
  - Position : [Painting and Insulation Supervisor](#)
- 2014 to 2014
  - Client : **PTT Phenol Train II Project**
  - Company : POSCO Engineering Co., Ltd.
  - Position : [QA/QC Piping](#)
- 2013 to 2014
  - Client : **Linear Alkyl Benzene Project**
  - Company : HYUNDAI Engineering Co., Ltd.
  - Position : [QA/QC Piping](#)
- 2012 to 2013
  - Client : **PTT Chem. Electrical Power and Steam Project**
  - Company : HYUNDAI Engineering Co., Ltd.
  - Position : [QA/QC and mechanical/piping supervisor](#)
- 2012 to 2012
  - Client : **IRPC Propylene Plan Project**
  - Company : GS Engineering & Construction Co., Ltd.
  - Position : [Painting and Insulation Inspector](#)
- 2010 - 2012
  - Client : **PTT Chem Electrical Power and Steam Project**
  - Company : HYUNDAI Engineering Co., Ltd.
  - Position : [Painting and Insulation Inspector](#)
- 2009- 2010
  - Client : **Interconnection Pipeline & Cables Package Project**
  - Company : PTT Maintenance & Engineering Co., Ltd.
  - Position : [Painting and Insulation Supervisor](#)

- 2008 - 2009  
Client : **HMC-PP PROJECT LINE-3 Project**  
Company : GSI Thailand Co., Ltd.  
Position : [QA/QC](#)
- 2007 -2008  
Client : **MOC CRACKER Project**  
Company : GSI Thailand Co., Ltd.  
Position : [QA/QC](#)
- 2006-2007  
Client : **BSTE REFIRICATION Project**  
Company : GSI Thailand Co., Ltd.  
Position : [QA/QC](#)
- 2006-2007  
Client : **BD& SOLVENT PURIFICATION Project**  
Company : GSI Thailand Co., Ltd.  
Position : [QA/QC](#)

## **Detail of Experience**

### **2019 – Present**

Client : **GC OXIRANE Company Limited**  
 Project : **PROPYLENE OXIDE PROJECT**  
 Position : [Insulation and Painting Supervisor](#)  
 Company : PTT Maintenance & Engineering Co., Ltd.  
 Work Location : Map-Ta-Phut (Rayong Province)

**Responsibilities**

- Monitoring inspection of surface preparation Before Insulation Installation Work,
- Control Insulation Installation Work.
- Monitoring and inspection to assure quality of work
- Performance and inspection of the Insulation materials and systems in this specification
- Insulation Materials Checking
- Inspection as per Insulation specification and inspection test plan [ITP]
- Monitoring inspection of surface preparation,
- Monitoring inspection of Atmospheric Condition, Ambient Temp, Relative Humidity, Surface - Temp. And Dew Point.
- Monitoring Painting Reparation Work.
- Performance and inspection of the painting materials and systems in this specification
- Inspection as per painting specification and inspection test plan
- D.F.T Inspection of Primer, Intermediate, Top coat.

### **2017 – 2019**

Client : **PTT Global Chemical Public Company Limited**  
 Project : **LLDPE EXPANSION AND HEXENE-1 Project**  
 Position : [Insulation and Piping Supervisor](#)  
 Company : PTT Maintenance & Engineering Co., Ltd.  
 Work Location : Map-Ta-Phut (Rayong Province)

**Responsibilities**

- Monitoring inspection of surface preparation Before Insulation Installation Work,
- Control Insulation Installation Work.
- Monitoring and inspection to assure quality of work
- Performance and inspection of the Insulation materials and systems in this specification
- Insulation Materials Checking
- Inspection as per Insulation specification and inspection test plan [ITP]
- Monitoring Control Piping Construction Installation Work.
- Piping Line Check and Piping Reinstatement Inspection.

### **2014 – 2016**

Client : **PTT Global Chemical Public Company Limited**  
 Project : **Convert Heavy Gas to Olefins Feedstock Project**  
 Position : [Painting and Insulation Supervisor](#)  
 Company : Business Services Alliance Co.,Ltd.  
 Work Location : Map-Ta-Phut (Rayong Province)

**Responsibilities:**

- Coordinate between the construction contractor and project lead to resolve field discrepancies in design package and material delay.
- Monitoring inspection of surface preparation,
- Monitoring inspection of Atmospheric Condition, Ambient Temp, Relative Humidity, Surface -

- Temp. And Dew Point.
- Monitoring Painting Reparation Work.
- Performance and inspection of the painting materials and systems in this specification
- Inspection as per painting specification and inspection test plan
- D.F.T Inspection of Primer, Intermediate, Top coat.
- Coordinate between the construction contractor Preparation Insulation Works.
- Monitoring Painting and Insulation Work Follow Schedule.
- Control Insulation Installation Work.
- Monitoring and inspection to assure quality of work
- Performance and inspection of the Insulation materials and systems in this specification
- Insulation Materials Checking
- Inspection as per Insulation specification and inspection test plan [ITP]
- Monitoring and Inspection Installation Ceramic Fiber Ground Flare work
- As-Built Drawing.
- Piping Line Check.
- Supervisor Control Installation Static Equipment and Inspection.

#### **2014 –2014**

Client  
Project  
Position  
Company  
Work Location  
**Responsibilities:**

- : **PTT Phenol.**
- : **PTT Phenol Train II Project**
- : **QA/QC Piping**
- : POSCO Engineering Co., Ltd.
- : Map-Ta-Phut (Rayong Province)
- Monitoring Piping Work in Work Shop.
- Review Document Required For Inspection.
- Keep & Received Document Make Package Piping
- Review P and ID Drawing and Prepare Isometric and Spool Drawing
- Dimension Check and Visual Check Inspection.
- Review Test Package for Piping
- Line Check
- Preparation of Welding Record and As-Build Drawing
- Inspection Piping Painting and steel Structure Painting
- Inspection as per Insulation specification and inspection test plan [ITP]
- D.F.T Inspection of Primer, Intermediate, Top coat.
- Review Test Package for Piping

#### **2013 –2014**

Client  
Project  
Position  
Company  
Work Location  
**Responsibilities:**

- : **LABIX COMPANY LTD.**
- : **Linear Alkyl Benzene Project**
- : **QA/QC Piping**
- : HYUNDAI Engineering Co., Ltd.
- : Sriracha, Thailand
- Monitoring Piping Work in Work Shop.
- Review Document Required For Inspection.
- Keep & Received Document Make Package Piping
- Review P and ID Drawing and Prepare Isometric and Spool Drawing
- Dimension Check and Visual Check Inspection.
- Review Test Package for Piping
- Line Check
- Preparation of Welding Record and As-Build Drawing
- Inspection Piping Painting and steel Structure Painting
- Inspection as per Insulation specification and inspection test plan [ITP]
- D.F.T Inspection of Primer, Intermediate, Top coat.
- Review Test Package for Piping

#### **2012 - 2013**

Client  
Project  
Position  
Company  
Work Location

- : **PTT CHEMICAL Co., Ltd.**
- : **PTT Chem Electrical Power and Steam Project.**
- : **QA/QC and mechanical/piping supervisor**
- : HYUNDAI Engineering Co., Ltd.
- : Map-Ta-Phut (Rayong Province)

**Responsibilities:**

- Coordinate between the construction contractor and project lead to resolve field discrepancies in design package and material delay
- Control subcontractor going to work on scheduled
- Inspection Fabrication and Installation at field for piping work Aboveground
- Field design engineering such as field piping Modification and piping support
- Witness inspection on field report complete
- Piping Line check and clear punch list for package
- Witness Hydro test flashing and commissioning,
- Reinstatement and report complete
- Clear warranty claim of Project.
- As-Built Drawing.
- Supervisor Control Installation Piping and Static Equipment Inspection.

**2012 - 2012**

Client

: **IRPC Public Co., Ltd.**

Project

: **Propylene Plan Project**

Position

: **Painting and Insulation Inspector**

Company

: GS Engineering &amp; Construction Co., Ltd.

Work Location

: IRPC( Rayong Thailand )

**Responsibilities:**

- Performance and inspection of the painting materials and systems in this specification
- Inspection as per painting specification and inspection test plan [ITP]
- Monitoring and inspection to assure quality of work
- Monitoring inspection of surface preparation,
- Monitoring inspection of Atmospheric Condition, Ambient Temp, Relative Humidity Surface -. Temp. and Dew Point.
- D.F.T Inspection of Primer, Intermediate, Top coat.
- Review and Approve Inspection Report.
- Inspection Piping Painting and steel Structure Painting
- Performance and inspection of the Insulation materials and systems in this specification
- Insulation Materials Checking
- Inspection as per Insulation specification and inspection test plan [ITP]
- Monitoring and inspection to assure quality of work
- Monitoring inspection of surface preparation,
- Review and Approve Inspection Report.

**2010 - 2012**

Client

: **PTT CHEMICAL Co., Ltd.**

Project

: **PTT Chem Electrical Power and Steam Project.**

Position

: **Painting and Insulation Inspector**

Company

: HYUNDAI Engineering Co., Ltd.

Work Location

: Map-Ta-Phut (Rayong Province)

**Responsibilities:**

- Performance and inspection of the painting materials and systems in this specification
- Inspection as per painting specification and inspection test plan [ITP]
- Monitoring and inspection to assure quality of work
- Monitoring inspection of surface preparation,
- Monitoring inspection of Atmospheric Condition, Ambient Temp, Relative Humidity, and Surface -. Temp. And Dew Point.
- D.F.T Inspection of Primer, Intermediate, Top coat.
- Review and Approve Inspection Report.
- Inspection Piping Painting and steel Structure Painting
- Performance and inspection of the Insulation materials and systems in this specification
- Insulation Materials Checking
- Inspection as per Insulation specification and inspection test plan [ITP]
- Monitoring and inspection to assure quality of work
- Monitoring inspection of surface preparation,
- Review and Approve Inspection Report.

**2009 - 2010**

Client

: **PTT CHEMICAL Co., Ltd.**

Project

: **Interconnection Pipeline & Cables Package Project.**

Position

: **Painting and Insulation Supervisor**

Company

: PTT Maintenance &amp; Engineering Co., Ltd.

Work Location : Map-Ta-Phut (Rayong Province)

**Responsibilities:**

- Coordinate between the construction contractor and project lead to resolve field discrepancies in design package and material delay
- Control Painting Reparation Work.
- Control Insulation Installation Work.
- Monitoring Painting and Insulation Work Follow Schedule.
- Performance and inspection of the painting materials and systems in this specification
- Inspection as per painting specification and inspection test plan [ITP]
- Monitoring and inspection to assure quality of work
- Monitoring inspection of surface preparation,
- Monitoring inspection of Atmospheric Condition, Ambient Temp, Relative Humidity and Surface -. Temp. And Dew Point.
- D.F.T Inspection of Primer, Intermediate, Top coat.
- Review and Approve Inspection Report.
- Inspection Piping Painting and steel Structure Painting
- Performance and inspection of the Insulation materials and systems in this specification
- Insulation Materials Inspection.
- Inspection as per Insulation specification and inspection test plan [ITP]
- Monitoring and inspection to assure quality of work
- Monitoring inspection of surface preparation,
- Review and Approve Inspection Report.

## **2008 –2009**

Client : **HMC POLYMERS Co., ltd.**

Project : **HMC PP LINE3 Project.**

Position : **QA/QC**

Company : **SEJIN P&I (Thailand) Co., ltd.**

Work Location : Map-Ta-Phut (Rayong Province)

**Responsibilities:**

- Dimension Check and Check Centreline
- Review Document Required For Inspection.
- Then Penetration Inspection Joint Weld.
- Visual Check Undercutting Joint Weld.
- Verity the in Coming Material if is Comply with Specifications Stated in the Drawings
- Requirements Check Joint in Isometric
- Keep & Received Document Make Package Piping
- Review P and ID Drawing and Prepare Isometric and Spool Drawing
- Preparation of Welding Record and As-Build Drawing
- Inspection Piping Painting and steel Structure Painting
- Preparation Test Package for Piping
- D.F.T Inspection of Primer, Intermediate, Top coat.
- Performance and inspection of the Insulation materials and systems in this specification
- Inspection as per Insulation specification and inspection test plan [ITP]
- Monitoring and inspection to assure quality of work

## **2007 - 2008**

Client : **ROC**

Project : **MOC CRACKER Project**

Position : **QA/QC**

Company : **GSI Thailand Co.,Ltd.**

Work Location : **IRL Eastage Rayong**

**Responsibilities:**

- Dimension Check and Check Centreline
- Review Document Required For Inspection.
- Then Penetration Inspection Joint Weld.
- Visual Check Undercutting Joint Weld.
- Requirements Check Joint in Isometric
- Keep & Received Document Make Package Piping
- Review P and ID Drawing and Prepare Isometric and Spool Drawing
- Preparation of Welding Record and As-Build Drawing
- Inspection Piping Painting and steel Structure Painting
- Inspection as per Insulation specification and inspection test plan [ITP]
- D.F.T Inspection of Primer, Intermediate, Top coat.
- Preparation Test Package for Piping

## **2005 -2007**

Client	: <b>BST/BSTE Bangkok Synthetic Co., Ltd.</b>
Project	: <b>BSTE REFIRICATION Project. and BD &amp; SOLVENT PURIFICATION Project.</b>
Position	: <b><u>QA/QC</u></b>
Company	: GSI Thailand Co., Ltd.
Work Location	: Map-Ta-Phut (Rayong Province)
<b>Responsibilities:</b>	<ul style="list-style-type: none"> <li>- Dimension Check and Check Centreline</li> <li>- Review Document Required For Inspection.</li> <li>- Identifies Item Consider Complete and Prepare final</li> <li>- Then Penetration Inspection Joint Weld.</li> <li>- Visual Check Undercutting Joint Weld.</li> <li>- Verity the in Coming Material if is Comply with Specifications Stated in the Drawings</li> <li>- Ensure That All Item Installed Are in Accordance with Specifications, Drawing and Inspection Requirements Check Joint in Isometric</li> <li>- Keep &amp; Received Document Make Package Piping</li> <li>- Review P and ID Drawing and Prepare Isometric and Spool Drawing</li> <li>- Preparation of Welding Record and As-Build Drawing</li> <li>- Inspection Piping Painting and steel Structure Painting</li> <li>- D.F.T Inspection of Primer, Intermediate, Top coat.</li> <li>- Preparation Test Package for Piping</li> </ul>
